WHICH STARTS ON THE STAGE.

Chicago, Ill., Dec. 30.—It is estimated that 700 lives were lost at a fire and panic at the Iroquous Theature. The fire broke out in the second act of the play "Bluebeard." The fare originated in the flies of the stage from a defect in the electrical display. Hundreds of men and women with faces and hands badly burned were removed to a neighboring drug store where the worst injured were hastly attended to. The fire gained so rapidly on the firmed that it was unterly impossible to rescue the surging mass of frighten-dhumanity from the burning building.

First Prisoner a Horse Thiel.

(Winchester Democrat.)

The original penitentiary at Frank-lort was built about 100 years ago, and it is a fact that for the first year after it was completed there was only one prisoner confined within its walls, and he was a horse thief. Since then it has several times been enlarged, and is now crowded beyond the rules of good health or the original ideas of the builders. At present there are about 1,000 convicts on the rolls, and the number is increasing slowly but surely. What a change from the days when the lone horse thief was monarch of all he surveyed inside the prison walls.

FRENCH LICK AND WEST BADEN SPRINGS.

In the highlands of Indiana—a two hour ride from Louisville there flow wonderful healing waters, that you'd spend hundreds of dollars to enjoy if they were in Europe.

A rocent visitor from Philadelphia, who formerly went to Carlebad every year, said: "I do not see why anyone goes to Europe for medicinal waters. The water is as beneficial, and the seconery and surrounding country, the air and the opportunities for recreation are better; the hotels and all accommodations are much fluer at French Lick-West Badon Springs"—and this gentleman is a native of Switzerland.

The splendidly wooded hills with the cool, invigorating air of those highlands where one can enjoy rambles in the depths of the forest, or rides and drives among the numerous bridle paths and roadways, afford leasure for those who desire rest and quiet; while at the splendid cashnos one can have a substantial or the splendid cashnos one can have at the most fashionable result.

Last week the Earlington Bee issued its coal and railroad souvenir edition, which is a typographically beauty typographically and printed upon handsome calendar book paper. It described the coal deposits of Hopkins and adjoining counties, spoke of the early efforts in obtaining a railroad, a history of the town, besides bic raphies and other interesting matter. It was an edition which was a benefit to the town and its advertisers and not such a one as was perpetrated by the Bickers upon our people last summer. It was issued for the benefit of the community and not for professional hold up per-ambulating boom edition fakirs. We congratulate both Editor Moore and Earlington over its splendid get up and appearance.
